

Yagmur Sezgin

VISUAL COMMUNICATION DESIGNER

I'm Yağmur Sezgin. As a visual designer trying to add new features to myself, I am progressing in the field of UI/UX design.

I have participated in many events throughout my education life. I was one of the founding members of the creative design community for about 3 years during my university life. The events and interviews we organised were unforgettable memories. Based on these events and workshops, I have skills that I want to develop over time. Being curious and observant, I am ready to do my best, and I can complete my designs meticulously with my diligence.
